
HEALTH CARE WITH AN ITALIAN DESIGN

This is the story of a 'cathedral in the desert': the *Salam* Centre for Cardiac Surgery in Khartoum, Sudan, where everything from the building to the management structure has been designed to represent the fundamental values of caring and preserving life, regardless of sex, race and belief.

Raul Pantaleo, designer/architect of EMERGENCY hospitals in Africa, **Lucia Rocca**, EMERGENCY mid-wife in Afghanistan, and **Gianluca Cantalupi**, EMERGENCY UK trustee in London, will talk about EMERGENCY's work in Khartoum as well as its mission.

EMERGENCY is an NGO, founded in Italy in 1994 and accredited by the UN in 2006, providing free, high quality medical and surgical treatment to civilian victims of war, landmines and poverty. EMERGENCY UK followed in 2007.

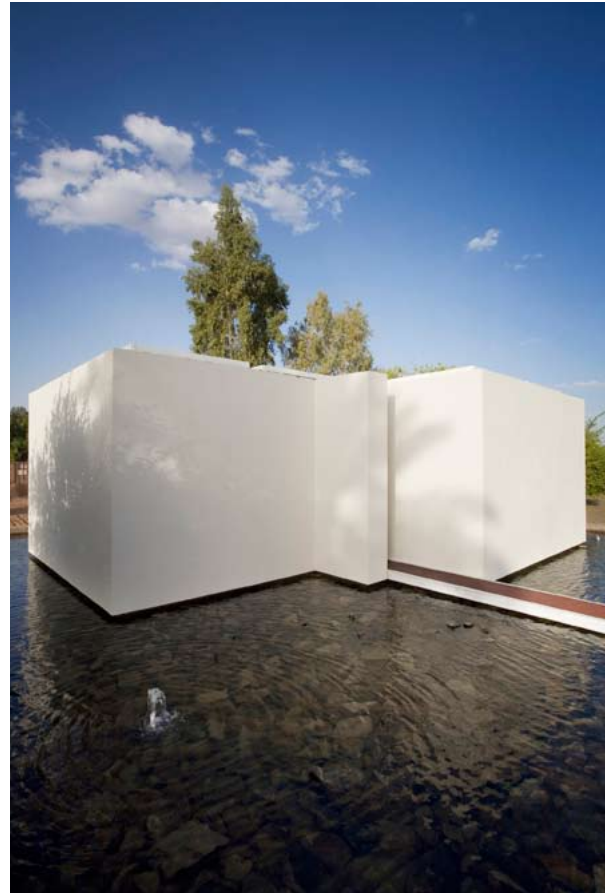

Monday 3 November 2008, 6.30pm

Istituto Italiano di Cultura
39 Belgrave Square
London SW1X 8NX
